Email: pragyanautiyal.94@gmail.com

Skype name: pragyanautiyal

*For the following three questions you should make reference to the first page of this document, which outlines some details of the Steering Committee role and also some of the required skills.*

## **2. Experience**

My experience in the Green Movement/Politics is very new. I came into the contact of the political Green only after my mother (Anita Nautiyal, a senior leader of the Uttarakhand Parivartan Party – UKPP, India) joined UKPP in 2013. After joining UKPP in the same year, I also campaigned for the Aam Aadmi Party (AAP) candidates with UKPP President PC Tewari and another senior party leader Suresh Nautiyal as at that time UKPP was supporting the AAP in the Assembly elections. Besides, I have taken part in several campaigns, demonstrations, sit-ins, meetings, etc, organised by the party especially in Ramnagar, Dehradun and New Delhi. One such action programme was the Save Nanisar Movement which has been going on for more than a year now and the demands include small farmers' rights over their village land, which has illegally been given to an industrialist by the State Government.

Apart from the political activities as mentioned above, I have been a social and animal rights activist for a long time. Prominent among such activities is my participation in a movement (Dobra Chanthi Bridge Movement) that requires the Uttarakhand State Government to build a bridge over the Tehri Dam Reservoir so that a large population has easy accessibility to other places in the state or elsewhere.

Apart from all this, I have been assisting in running a Green School (Ananda Vatika Green Gurukulam) in Tehri Garhwal of Uttarakhand. This school is preparing the school children to be the Green leaders in future.

### **3. Motivation to join the SC**

I want to be a part of global green movement. joining the steering committee will help me go in the right direction as we, in India are in a process of making a national Green party.

As a young female in indian politics ,it is troublesome and concerning. I feel opportune to be in touch with GYG ,which is very positive about gender balance and is delighted to give young people a chance to get into politics and help in taking some very important decisions. This is a great chance for all us young people to be a part of this revolution and create awareness.

I feel buoyant about this opportunity and I completely conform to the beliefs of GYG.I think the love and respect for everything GYG family has is very respectful, and all this love and respect can be spread amongst everything and everybody.

I really want to be a part of this loving family and give my best to GYG and its members.

### **4. How do you want to help develop GYG?**

I am pursuing my masters in garment manufacturing technology and my forte includes designing banner, logo, garments, storyboards, pamphlets, etc.

I also paint murals , portraits,etc.

I can help GYG with the designing and branding. Visual communication is very important in respect with the target audience. Right designs catches the attention of right targets and gives out the right message.
